

UNLOCKING THE SEVERN

**WORLD FISH
MIGRATION DAY**

World Fish Migration is an international celebration of opening up rivers and recovering migratory fish populations. Every 2 years this event connects hundreds of thousands of people around the world with the same interest: protecting rivers and fish.

Create a Fish Window this May!

This year, new fish passes have unlocked the River Sever for the May Fish Migration - for the first time in nearly 180 years! Our Diglis fish pass includes this a unique underwater fish-viewing window.

So on this historic year, we're asking you to show your support by displaying your own fish window at home, school, or office!

Use the shad shapes provided, you can colour in the fish if you like, or use as a template to cut shad fish from newspaper and old magazines.

Be as creative as you like!

Then share your creations with us ready for World Fish Migration Day on Saturday 21 May.
